

Toulouse, May 17th, 2016

As president of Université Toulouse 3 Paul Sabatier, I hereby confirm my firm intent to participate as a partner in the proposed Convergence Lab «Mind and Brain" that would be coordinated by Professor Simon Thorpe.

We believe this project is consistent with the current priorities of our institution : achieve scientific excellence, create and disseminate new knowledge and provide world-class education.

With this letter of commitment, we agree and assure that the project coordinator is authorized to submit the proposal on our behalf, and, as member of the consortium, we will support all necessary activities and documents in due time for successful proposal preparation.

My colleagues at Université Toulouse 3 - Paul Sabatier, and I are looking forward to a lasting and fruitful collaboration within «Mind and Brain».

Yours faithfully

Pr JP Vinel
